

Salesbarn, Surrenders, and Rescue

The Salesbarn

The Salesbarn keeps only a limited number of horses visible in the stalls. A larger catalog is available through the entrance NPC.

Breed Restrictions

Salesbarn purchases still follow breed progression rules. Players may only buy horses from breeds they have already unlocked through rank progression.

Unlocked breeds can be reviewed at:

/menu > Progression > Breeds

Purchase Cooldown

Players may buy one Salesbarn horse every 16 hours

Purpose of Salesbarn Horses

Salesbarn horses help players expand herd size, improve breeding variety, and sometimes acquire horses with a small amount of prior training.

Elmer's Rescue

Elmer serves as a permanent horse surrender option for unwanted horses.

Players may surrender up to 15 horses per month for \$500 each. Horses surrendered this way are permanently removed and cannot be recovered later.

Elmer is currently located at:

/plot visit Sycamoree

Rescue System

A broader server owned rescue is **planned**. Compared with Elmer, the rescue is intended to accept fewer horses while offering better compensation and allowing those horses to re-enter circulation later through future purchase.
