

How to Breed Horses

- Breeding

Breeding

To breed horses:

- Mare must be **4 years old** and in heat
- Stallion must be **3 years old**

↳ Keep your stud and mare in close range of each other, they will breed on their own, no tokens needed. If you are at your horse limit, they will not breed. Horses will have a "Breeding" status in their details when successful. Confirm the pregnancy with a Vet via Ultrasound.
