

Farrier

The Farrier role focuses on hoof care, shoeing, and lower-leg support. This is one of the most important routine care roles, since hoof condition has a major effect on a horse's comfort and soundness.

Common farrier services include:

- Hoof cleaning
- Hoof trims
- Cold shoeing
- Hot shoeing
- Unshoeing
- Curing hoof illnesses

Farrier work is ideal for players who enjoy detailed maintenance, practical horse care, and soundness-focused roleplay.
