

Geneticist

The Geneticist role focuses on breeding analysis, hereditary review, and lineage-based support. This job is ideal for players who enjoy the science and planning side of breeding.

operations include:

- Fertility checks
- Hereditary exams
- Offspring exams
- Pedigree or inbreeding review

This role is especially useful for breeders who want more insight into pairings, offspring, and bloodlines.

Role Head: Oak

Requesting Work

For genetics work, head to the Geneticist office in **Ventura** and request the genetics service you need. Additionally, you can ask an online Geneticist in chat, or ping a Geneticist in our discord.
