

Vet

The Vet role focuses on general medical care, preventive care, and important health procedures. Vets are one of the broadest horse care roles and are often responsible for helping horses stay healthy over the long term.

Common vet services include:

- Vaccinations
- Wormer
- Microchipping
- Gelding
- C-sections
- Curing Vet or Malnutrition illnesses

Vets are a strong choice for players who enjoy medical roleplay, horse health, and overall wellness care.

Role Head: Lex

Requesting Work

For vet work, head to the Vet office in **Ventura** and request the service needed for your selected horse. Additionally, you can ask an online Vet in chat, or ping a Vet in our discord.
